

# PRAJAKTA DHANANJAY BHOSALE

Senior Software Engineer | Automotive Electronics | Embedded Systems | Onsite Japan

[bhosaleprajakta98@gmail.com](mailto:bhosaleprajakta98@gmail.com) | +81-9037792449 | +91-9421216759 | Utsunomiya, Japan | [LinkedIn](#)

## PROFESSIONAL SUMMARY

---

Senior Software Engineer with 5 years of experience in automotive embedded systems and electronics. Skilled in CAN/LIN communication, ECU design, and V-Model development. Onsite experience in Japan delivering TSR (Traffic Sign Recognition) data analysis and camera-based dirt detection projects. Proficient in Embedded C, Python, and automation tools, with hands-on ADAS feature validation. Bilingual in Japanese (JLPT N3) and English, enabling smooth technical and cultural communication.

## PROFESSIONAL EXPERIENCE

---

### KPIT Technologies, Pune, Maharashtra, India | Onsite: Japan

#### Senior Software Engineer (Onsite — Japan)

June 2024 – Present

##### TSR (Traffic Sign Recognition) Data Analysis Project

- Serve as Onsite Engineer for TSR Data Analysis, leading feature verification and validation processes.
- Perform comprehensive TSR feature testing and validation using Google Maps integration.
- Prepare detailed technical analysis reports for stakeholder review and decision-making.
- Implement automation solutions (Python) to streamline data analysis workflows and improve efficiency by 30%.
- Provide bilingual (Japanese–English) support for seamless communication between international teams.

#### Software Engineer

January 2024 – June 2024

##### Camera Data Analysis Project (Honda Account)

- Provided bilingual support for camera data analysis initiatives and stakeholder interactions.
- Specialized in scene tagging and analysis using FSViewer to enhance camera performance.
- Developed and optimized dirt-detection software algorithms (C/MATLAB) for automotive camera systems.
- Bridged technical and language gaps, enabling efficient cross-cultural execution.

#### Software Engineer

March 2021 – December 2023

##### EEAF (Electrical and Electronic Architecture Framework) Project (PACCAR Account)

- Gained 2 years 10 months of hands-on experience in embedded electronics and automotive systems.
- Specialized in automotive communication protocols including CAN and LIN.
- Led truck architecture mapping and produced comprehensive EEAF documentation.
- Utilized IBM Rational Rhapsody, Microsoft Visio, YED GraphML, SVN Tortoise, Windchill, and DNG.

## TECHNICAL SKILLS

---

### Programming Languages & Development Tools:

C Programming, Python, MATLAB, Simulink, Embedded Systems, Data Analysis, Automation Scripting

### Automotive Technologies & Protocols:

CAN Protocol, LIN Protocol, TSR Systems, Camera Systems, AUTOSAR, ISO26262, ECU Design, ADAS, V-Model Development

### Software Tools & Platforms:

IBM Rational Rhapsody, FSViewer, Microsoft Visio, SVN Tortoise, Windchill, DNG, Google Maps API, YED GraphML

### Professional & Soft Skills:

Cross-cultural Communication, Team Management, Technical Documentation, Project Leadership, Quality Assurance, Requirement Analysis, Bilingual Support (Japanese–English)

## LANGUAGES

---

- **English:** Professional Working Proficiency
- **Marathi:** Native Language
- **Japanese:** JLPT N3 Certified, Business Japanese (In Progress)

## EDUCATION

---

### Bachelor of Engineering (Electronics)

KIT College of Engineering, Kolhapur

87.13% | 2017–2020

### Engineering Diploma (Electronics & Telecommunication)

Government Polytechnic Kolhapur

86.69% | 2014–2017

### Secondary School Certificate (SSC)

Princess Padmaraje Girls High School, Kolhapur

86.80% | 2014

## CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

---

- Self-Driving Cars — Coursera (2024)
- Generative AI and Prompt Engineering — KPIT Academy (2024)
- Python Programming Basics — Udemy (2024)
- Agile Management — KPIT Academy (2024)
- MATLAB and Simulink Onramp Certification — MathWorks Platform (2023)
- ROS (Robotics Operating System) Workshop — MIT University Pune & RSPinJapan (2023)

- ECODE Automotive Courses — ASPICE, MBD & Automotive Body Electronics (2022)
- PACE and Genesis Training — KPIT Technologies (2021)

## AWARDS & RECOGNITION

---

- **Client Excellence Award (2024)** — Honda Account for outstanding project performance
- **Client Excellence Award (2023)** — PACCAR Account for exceptional contributions
- **Krown Award "The Comrades" (2023)** — Team recognition for collaborative excellence in PACCAR projects
- **KPCL Cricket Champions (2023)** — Women's champions trophy winner in KPIT PACCAR Cricket League
- **CSR Volunteer** — Active participant in "Chote Scientist" community engagement event at KPIT

## PROJECTS & DOMAIN EXPERTISE

---

- **Automotive Electronics:** ECU design principles, embedded systems integration, V-Model lifecycle
- **Communication Protocols:** In-depth expertise in CAN and LIN automotive communication protocols
- **Functional Safety Standards:** Working knowledge of ISO26262 safety standards and compliance
- **Data Analysis & Automation:** Camera data analysis, TSR feature validation, Python-based process automation
- **Cross-cultural Project Management:** Managed international projects with Japanese and American clients

## HOBBIES & INTERESTS

---

- **Warli Painting** — Traditional Indian folk art form
- **Trekking** — Adventure and nature exploration
- **Cross-cultural Exchange** — Learning about different cultures and languages
- **Technology Innovation** — Staying updated with automotive and AI technologies
